

Number-Grid Puzzles

Home Link 8-10

NAME _____

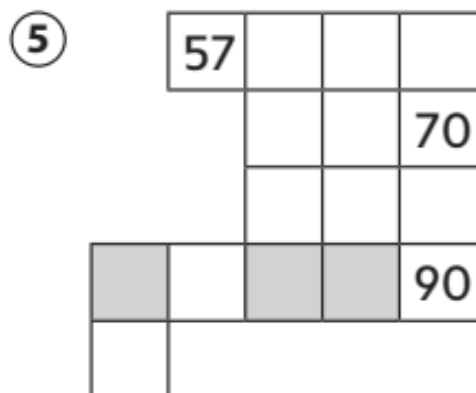

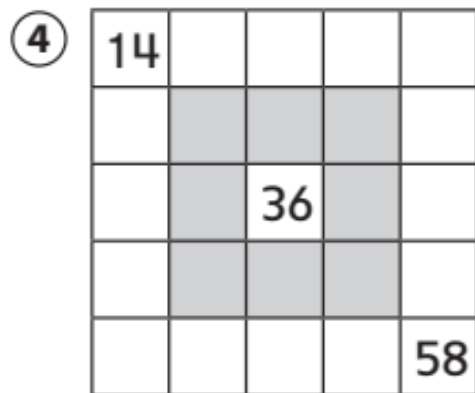

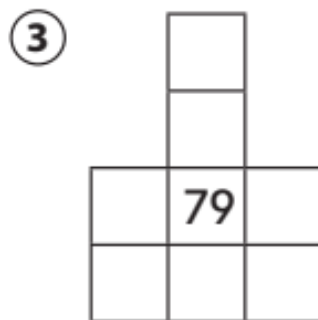

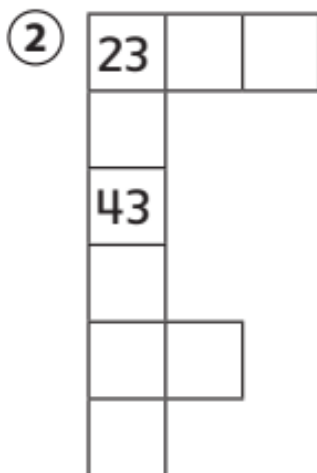

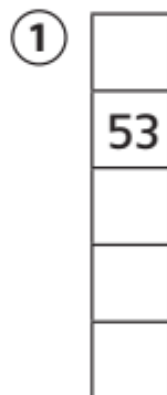

DATE _____

Family Note

Ask your child to show you how to complete the number-grid puzzles below. Encourage him or her to explain number-grid patterns that are helpful for solving the problems. For example, if you move up one row, the digit in the tens place is 1 less.

Please return this Home Link to school tomorrow.

Show someone at home how to fill in the missing numbers.

Practice
