

Review: Data

Family Note

Today your child's class took a survey. After everyone answered the survey, children totaled the results and displayed the data on a bar graph. The survey results below are similar to what children used in class today. Work with your child to make a bar graph and to answer the questions.

Please return this Home Link to school tomorrow.

A class took a survey about their favorite subjects.

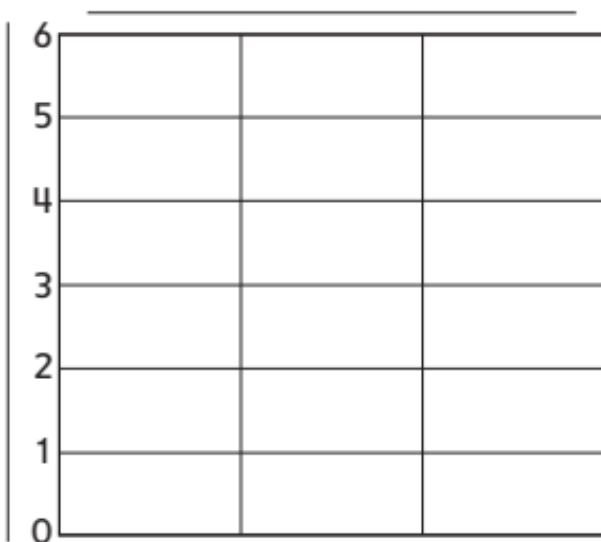

- ① Complete the bar graph.

5 children liked Reading best.

6 children liked Math best.

2 children liked Spelling best.

- ② How many children took the survey?

- ③ How many more children chose Math than Spelling?

Practice

- ④ Draw lines to divide the square into fourths.
