

- 1** If a shape is a rectangle, what must be true?

Circle ALL of the answers.

- A** It is a polygon.
- B** It is blue.
- C** It has 4 sides.
- D** It has 5 vertices (corners).

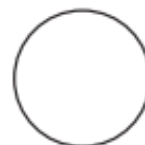

- 2** How many vertices (corners) does a rectangular prism have?

_____ vertices

- 3** Divide the circle into 2 equal shares. Write one name for a share.

- 4** Write the numbers.

- 5 Writing/Reasoning** Use base-10 blocks to add.

$$43 + 49 = \underline{\hspace{2cm}}$$

Why might you add the tens first?
